

Kamalesh Dwivedi joins Redhawk Group as a Board Member

Denver, May 1, 2008: Redhawk Investments Group, LLC today announced the addition of Mr. Kamalesh Dwivedi as a board member to Redhawk Investments Group. He will provide his leadership and perspective to the management team in the areas of offshore strategy, business development, and strategic client acquisition. Mr. Dwivedi is a well known industry leader, has tremendous experience in the offshoring and services industry and has been part of growing one of the largest service companies in the world.

Mr. Dwivedi commented that the vision and direction of Redhawk drew his attention. "The infrastructure issues with offshoring have a direct impact to the bottom line of companies that I have managed in the past. Redhawk addresses the core problem with offshoring in India with the focus on the productivity, environment, and community. Companies that desire to build sustainable offshore operations have to take into account the issues being addressed by Redhawk vision, and I am excited to join them to help translate the vision into a reality."

Mr. Bipin Agarwal, CEO of Redhawk, commented, "Kamalesh's leadership in the Information Technology Services area is very complementary to what Redhawk plans to deliver. His broad thought leadership and detailed knowledge about this industry is going to give Redhawk a competitive edge in the market place."

Mr. Kamalesh Dwivedi is a Senior Vice President and the Chief Information Officer of Network Solutions, a leading provider of e-business solutions and a pioneer of the domain name registration service. Mr. Dwivedi, a seasoned and a transformational technology executive, has more than 25 years of combined experience in engineering, high technology manufacturing and Information Technology. Prior to joining Network Solutions, Mr. Dwivedi was an Executive Vice President and the CIO at TeleTech Holdings, a leading global provider of Business Process Outsourcing, in Englewood, Colorado. Dwivedi has served as a vice president and Chief Information Officer of ADC Telecommunications, a global manufacturer of broadband equipment and a supplier to the telecom and cable industries. Prior to ADC, he was the Chief Information Officer of Scientific-Atlanta, now a division of Cisco and a global manufacturer and supplier of integrated technology products in video, voice and data to the telecom and cable industries. Dwivedi led the engineering and manufacturing functions for handsets in the pioneer days of the cellular phone industry, during the 80's in Canada.

Mr. Dwivedi holds a bachelor's degree in electrical engineering from the Indian Institute of Technology (IIT), Kanpur, India and a master's degree in engineering from Carleton University, Ottawa, Canada. He also graduated from the Harvard Business School's Program for Management Development.

About Redhawk Investments Group

Redhawk Investments Group, located in Denver, Colorado is in the business to assist in the development of real estate opportunities in India. Its purpose is to help develop a real estate park in India for the global services industry. The group conjoins the tremendous opportunity in the Indian real estate market and the need for professional services companies to develop a presence in India, in order to cater to local markets and develop the companies' global

back offices. Redhawk Investments Group has developed a plan for building a community of captive global services centers for about twenty thousand employees along with residential, healthcare, retail and recreational facilities for the employees and their families all within a twenty minute radius. This **Twenty-Minute Lifestyle** will provide clients with additional 30 % savings through lower turnover, higher employee engagement, better training opportunities and superior customer service.
